

COMPONENT TYPES

- Brackets
- Angles
- Graded top hats
- Custom top hats
- Laser-cut components

MATERIAL:

- High tensile steel
- Hot-dipped galvanised mild steel
- Stainless steel
- Aluminium

APPLICATIONS

- Structural support
- Fastening systems
- Anchoring solutions

WHAT IS SOLSPEC SERIES?

Custom Bracketry & Components

Frame-Tek's range of custom components, angles, and bracketry designed for the facade industry.

Whether your project requires structural support, fastening, or anchoring, Solspec delivers tailored solutions fabricated from high-quality materials.

DESIGN & ENGINEERING SUPPORT

Frame-Tek's team collaborates with you to design and engineer components that meet your exact project requirements. From access planning to labour-saving strategies, we ensure your solution is structurally sound and value-optimised.
